SAFETY NOTICE

Epilepsy warning :

DanceMat Software contains flashing images

When playing a software product which is connected to screen, stay at a sufficient distance from the screen and as far away as the connection cable can reach.

For your health, rest for about 15 minutes of each hour of play. Avoid playing when tired or suffering from lack of sleep. Always play in a brightly lighted room, and stay as far from the television as possible. Some people experience epileptic seizures when viewing flashing lights or patterns in our daily environment. These persons may experience seizures while watching TV pictures or playing video games. Even players who have never had any seizures may nonetheless have an undetected epileptic condition. Consult your doctor before playing video games if you have an epileptic condition or immediately should you experience any of the following symptoms during play, dizziness, altered vision, muscle twitching, other involuntary movements, loss of awareness of your surroundings, mental confusion, and / or convulsions..

Installation of DANCE DANCE DANCE

Place the disc into your CD-ROM drive. If your computer is AutoPlay capable, the game's Installer menu will automatically appear on the screen. Select "Install DDD" from the list to start the installation process. Follow the on-screen instructions.

If your system is not AutoPlay capable, open the "My Computer" icon on your Desktop and select the drive letter that represents your CD-ROM drive. Double-click on the "Setup" icon and follow the instructions in the previous paragraph. A short-cut icon will appear on your desktop once the installation is complete.

HOW TO UNINSTALL THE GAME

If you want to totally uninstall the game from your system, use the standard uninstall procedure of Windows®

PLAYING THE GAME

To start the game, double-click on the DDD icon on your desktop. The table below shows you which keyboard keys or squares on your dance mat to press to access the appropriate arrow.
